

Buy affordable floor heating systems online

Coldbuster floor heating <http://www.coldbuster.com.au> kits offer an easy installation process for DIY enthusiasts or Trades, and can be bought online via our secure online store.

Tile floor heating

Coldbuster tile floor heating

<http://www.coldbuster.com.au/shop/bathroom-kits.html> systems can be installed on suspended timber or concrete subfloors for use under most hard floor surfaces including ceramic tiles, slate, porcelain, limestone, marble, terracotta, wood, laminate, vinyl & stone.

Heaters are available in seven different sizes. By using one or more of these heaters any room size and shape can enjoy under floor heating as a primary or secondary heating source.

Tile floor heating kits include:

- Pre-measured element mounted on self adhesive tape
- Factory terminated cold tail leads on the heater
- Self adhesive fibreglass mesh
- Programmable thermostat control
- Floor probe sensor
- Klimaguard installation monitor (Element alarm/tester)
- Installation guidelines <http://www.coldbuster.com.au/floor-heating-support/installation-overview.html>
- Technical & installation support (telephonic) <http://www.coldbuster.com.au/contact-us/contacts/coldbuster-floor-heating.html>

Carpet floor heating

The Coldbuster carpet floor heating panel <http://www.coldbuster.com.au/shop/under-carpet-floor-heating.html> is like an electric blanket fitted between your carpet and underlay.

The 1mm thin Coldbuster carpet heaters are guaranteed safe. The *floor heating* element is waterproof, fully earthed and connected to a RCD circuit at the time of installation - ensuring you are fully protected. Accidental spills or steam cleaning present no problem.

A comprehensive range of sizes accommodates any room size or layout.

Carpet floor heating kits include:

- 1mm thin laminated panel (polyester)
- Factory terminated 6 metre cold tail lead on heater
- Programmable thermostat control
- Floor probe sensor
- Klimaguard installation monitor (element alarm/tester)
- Installation guidelines <http://www.coldbuster.com.au/floor-heating-support/installation-overview.html>
- Technical & installation support (telephonic) <http://www.coldbuster.com.au/contact-us/contacts/coldbuster-floor-heating.html>

Innovative floor heating accessories

The **rug heater** <http://www.coldbuster.com.au/shop/rug-heaters.html> offers instant comfort directly under your rug. Installation is simple requiring no tools, and offers maintenance free use with minimal energy consumption. The rug heater saves space and does away with unsightly heating appliances. Simply unroll, cover with rug, plug in and enjoy luxurious warmth in 15 minutes.

With the **mirror demister**

<http://www.coldbuster.com.au/shop/mirror-demisters.html> , every time you step out from the shower or bath, your mirror will be crystal clear. The mirror demister provides a gentle heat which conducts through the mirror, preventing condensation.

The **mat heater** <http://www.coldbuster.com.au/shop/mat-heaters.html> keeps your feet warm, improving your circulation and productivity. Lightweight and easy to move, this portable, electric foot warmer uses minimal power.

The **programmable thermostat**

<http://www.coldbuster.com.au/shop/thermostats.html>

control offers automated operation and enhances the energy efficiency of your floor heating system. Programs can be set to regulate comfort levels via floor or room air temperature, up to 6 cycles per day, accommodating different weekday and weekend routines. Coldbuster **floor heating** systems controlled via DIN-Rail thermostats are compatible with home automation systems.
